INTRODUCTION

DUGONG ADVENTURE hatched from the idea of bringing together educational knowledge and a joyful environment to kids.

Today's kids spend most time playing with electronic products. Meanwhile, parents are busy at work and once they have free time. There is no more communication between kids, parents and families. By integrating kids playgrounds into our lives, we are given a powerful tool to maintain contact with kids. Both parents and kids together interacting, parents will know more about their kids and know how to inspire their ability. Kids feel more concern and love from their families. Such interaction is crucial for family education and a kid's character.

Kids are the future, and we do our best to bring joy to families by creating equipment that cultivates society, intellectual and physical growth. Keeping a happy and safe environment for kid is our original intention and determination.

CONTENTS

001-016		Non-standard customized series

BJ22-005B

The periphery of the parrot is a climbing facility and a runway. The tail of the parrot is raised upwards, and the parrot can quickly climb up the back of the parrot. On the parrot-shaped back are a pair of slides, from which friends can slide down together in pairs. On the side and around the parrot shape, there are many access channels. We combine products with unique shapes and rich colors to create an unprecedented play experience, so that children can completely indulge in the world of their own imagination in the playground

Young children spend most of their time in bed every day. So the bed is good or bad. It has a direct impact on the healthy development of young children. Our factory has been guided by relevant medical experts. Combined with the characteristics of the preparation, a kind of engineering plastic imported from foreign countries has been successfully developed. production. It is stronger, has no opening design, and will not row hands. The bed board is made of original fir wood. Refined from strips of fir wood, it has good breathability and is an absolutely green and environmentally friendly product. The beds can be stacked on top of each other, which is convenient to receive and can bring greater activity space to the kindergarten. between.

With plastic edge

1. Choosing Suyou Golf is a great free reward and incentive for customers.
2. It can be used as additional sales to old customers.
3. You can play indoors or outdoors. It can be played on the ground, lawn, floor, grass, turf or asphalt, and it is also the best choice for playing games on rainy days.
4. Both children and adults, as well as children with special needs, can enjoy playing this golf.
5. For children's team building is a creative opportunity. Mini golf is creating an artistic or architectural playing field.
6. It can last for several years under heavy use. The material we use is German ABS plastic.
7. For any level of competition, it can be easily carried, and you can also make them into different tracks.
8. Our mini golf can be played alone, or it can be played together with other toys, and it can be used to play relay. Passing game, obstacle game.
9. Mini golf is a very good activity in fundraising activities, and it has a prestigious success. People will be willing to play golf to donate.
10. This golf game is very interesting! Please watch our golf at the customer. Let's be realistic in camping.
